

SEMI-PERMANENT MOLD RELEASE

# XTEND 820

## WHAT SETS IT APART

XTEND 820 is a semi-permanent mold release that is ideal for open molding, high-yield applications that require premium quality finishes.

## WHY CHOOSE AXEL

You understand the importance of delivering finished goods with superior structural and surface quality. When you need the best, AXEL mold releases deliver unparalleled results.

### FAST APPLICATION

Wipe on, leave on application is perfect for large surface applications such as swimming pools and hulls or decks in the marine industry.

### DRIVE PRODUCTIVITY

Get more releases per application, eliminate pre-release, and have the flexibility to spray or wipe on.

### IMPROVE RESULTS

Fast and clear evaporation that does not require retouching, results in a high gloss appearance.

### QUALITY PRODUCTS

After more than 80 years in the mold release business, we take pride in our standards of excellence.
